Work experience

- 2011 *Product and Interaction Design Intern - Alcatel-Lucent Bell Labs (5 months)*
I had the opportunity to join the «social communication» team where I was in charge of designing the user interface of an object-centered social network.
- 2009 - 2010 *Industrial Designer - Serac (8 months)*
Besides school I worked several times as an Industrial Designer for Serac company. During all this time, I had to worked hand in hand with both marketing and engineering team.
- 2008 *Product Design Intern - Avant Première (4 months)*
I had the opportunity to work on many project for international brand such as Seb or Condor Balnéo. I acquired efficiency, 3D modelling skills, material Knowledge and teamworking skills.
- 2006 *Promotional work for Pilot and Bic*
As an experimented «penspinner» I had the opportunity to travel around the world to promote news products and be part of judge pannels for penspinning contests.

Awards

- 2011 *Special jury prize at Nantes Start-up Weekend*
I was part of a team working on Checkspear, a geosocial game based on the Foursquare API.
